

LOADSET

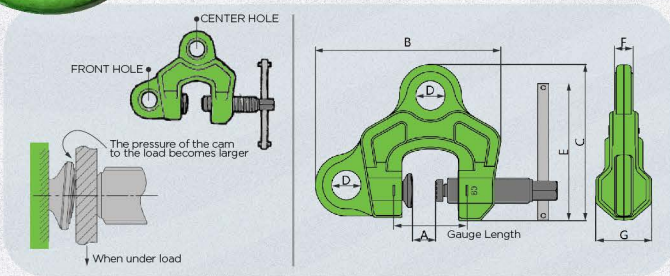

SAFE LIFTING - SECURE LASHING

UNIVERSAL SCREW CAM CLAMP

The LOADSET Universal Screw Cam Clamps are a welcome addition to the premium quality LOADSET range of lifting and hoisting products.

A robust lifting clamp suited to a large variety of different shaped steel, ranging from steel plates and structural steel to curved and spherical shaped steels ideal for applications such as lifting, hoisting, lashing, securing and work positioning.

These clamps are tested, certified and comply to Aust. Standards AS 4991 with spare parts readily available.

MODEL	WLL (t)	EFFECTIVE THICKNESS (mm)	GAUGE LENGTH (mm)	DIMENSIONS / mm							NET WEIGHT (kg)
				A	B	C	D	E	F	G	
LSCC01	1	0-40	80	0-40	203	170	32	150	20	61	4.3
LSCC02	2	0-40	90	0-40	226	190	36	150	25	76	8.2
LSCC03	3.2	5-40	95	5-40	250	205	45	200	31	86	10

Not to be used on plate harder than HRC30
